M-PReS Production THE ENTERPRISE FORMATTING ENGINE

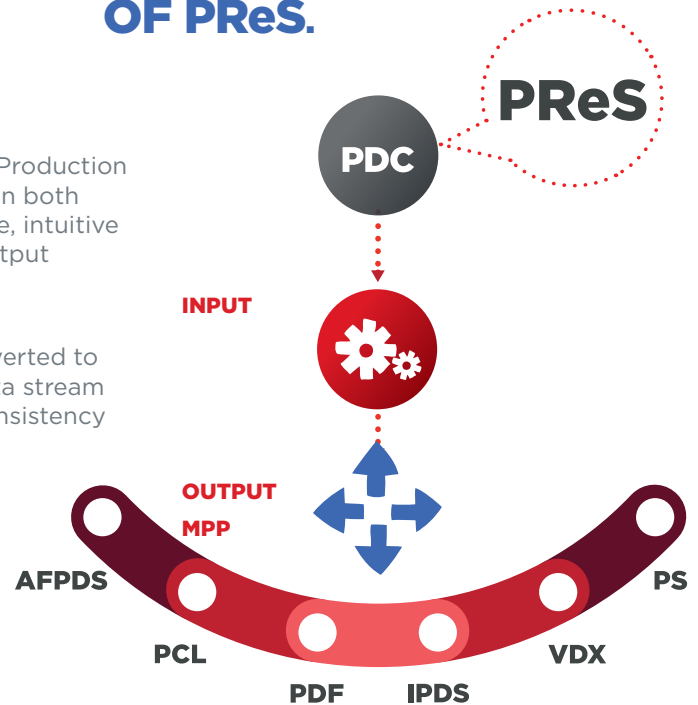

**M-PReS PRODUCTION
IS A FORMATTING AND
PRODUCTION ENGINE
DESIGNED TO EXTEND THE
POWER AND FLEXIBILITY
OF PReS.**

The "M" in M-PReS stands for "multi-platform" because M-PReS Production allows PDC files (compiled job files created by PReS) to be run on both Windows and high-end Unix servers. Not only that but as a single, intuitive print control, M-PReS Production can produce any supported output format from the PDC using a range of powerful data streaming options.

This means that jobs developed for one data stream can be converted to another without any changes being required in the script. All data stream output is based on the same internal format meaning greater consistency across jobs.

Flexible and innovative with powerful debugging and preview options, M-PReS Production provides full control over the generation of spool files for printing and archiving. Combining ease of use with performance and reliability, it can be integrated into any PDC workflow environment.

A cross platform solution that supports a variety of input and output formats, M-PReS Production is a powerful addition to the PReS range of products bringing greater flexibility to the production of quality personalised documents.

HOW WILL MY COMPANY BENEFIT?

- ✓ MULTI PLATFORM
- ✓ SINGLE PRINT CONTROL
- ✓ PDC TO ANY SUPPORTED DATA STREAM
- ✓ PREVIEW WHILE YOU PRINT
- ✓ SINGLE OR CONTINUOUS PRINTING
- ✓ PRINTING FROM A SPECIFIC RECORD
- ✓ EXTENSIVE DEBUGGING FACILITIES
- ✓ VARIABLE MONITORING AND TESTING
- ✓ POWERFUL DATA STREAM OPTIONS
- ✓ PDS COMPILER
- ✓ MORE FLEXIBLE DOCUMENT MANAGEMENT
- ✓ INCREASED EFFICIENCY AND PRODUCTIVITY
- ✓ REDUCED LEAD TIMES

KEY FEATURES

- ✓ **Data Input**
Fixed length, ASCII delimited and CR/LF delimited records (with fixed length fields) are currently supported. Also dBase, Access or Excel files
- ✓ **Graphics Supported**
PCX, JPEG, IPG/IPI, BMP, TIFF
- ✓ **Output**
AFPDS, PCL, PDF, VDX, PS, IPDS
- ✓ **Operating System**
Linux (Red Hat, SuSE, Fedora Core, Debian, Mandrake etc.), IBM AIX 4.3.3, HP-UX 11i, Sun Solaris 9, Windows 2000 and XP
